

Handling PFAS (Per- and Polyfluoroalkyl Substances)

Dear Sir or Madam,

In the European Union, a restriction on per- and polyfluoroalkyl substances (PFAS) is planned. The BWB Group, together with affected suppliers, is taking responsibility to comply with the legal requirements and the corresponding regulations of the European Chemicals Agency (ECHA). Together with our suppliers, we are evaluating possible future solutions.

Current processes of the BWB Group affected by PFAS:

- **PTFE impregnation**
- **Fluoropolymer coatings**

The listed processes are based on our current knowledge and the information provided by our suppliers. Analytical results or conducted measurements are not currently available.
